

```
In [10]: "Isnt," they said.'
```

```
Out[10]: "Isnt," they said.'
```

```
In [5]: "Isn\t," they said.'
```

```
Out[5]: "Isn\t," they said.'
```

Above, I wrote the strings in two different ways.

```
In [1]: print('c:\hetvi\nkavish')
```

```
c:\hetvi  
kavish
```

```
In [3]: print(r'c:\hetvi\nkavish')
```

```
c:\hetvi\nkavish
```

Above, when i wrote 'r' before the quote, \n did not got executed as a new line. Instead, it the quote got executed on the same line
